Stephan writes : *The 3P+ Navigators' unique process combines the principles from Systemic Constellations with Neuro-Linguistic Programming (NLP). The toolkit is specifically designed for entrepreneurs, managers and team leaders, and empowers them to take the initiative. CSR then no longer remains a beautiful thought, but inspires people to take action and generate sustainable outcomes. Using the 3P+ Navigator team leaders and their people are able to formulate a CSR strategy for their team, project or organization, in less than 90 minutes. The toolkit itself is open and free to use, see: [www.3p-plus-navigator.com](http://www.3p-plus-navigator.com) More on February 16 !*
